Revolving Tables

Revolving Tables is a one-of-a-kind networking event, hosted annually by the Visions Young Leadership Board of the Israel Cancer Research Fund (ICRF). The evening aims to raise awareness and funds for ICRF, while providing an experience with great food, professional growth and social exchange.

Throughout a cocktail reception and three-course meal, participants have the opportunity to meet other young professionals and engage with prominent Chicago executives, trendsetters and community leaders - we call them our "mentors."

After each course, the young professionals rotate tables, offering three exclusive opportunities to interact with new mentors.

Alumni Mentors

Mentors are executives from some of Chicago's leading organizations. Past mentors include representatives from the following companies:

ICRF Story

Israel Cancer Research Fund (ICRF) is a not-for-profit organization that was founded in 1975 by a group of American and Canadian physicians, scientists, and lay people who recognized the extraordinary accomplishments and unique global impact of science in Israel.

Their vision became a reality and now hundreds of Israeli researchers across all fields of cancer research are incentivized to return to Israel and work in established laboratories to find the next break-throughs in cancer through donations from the United States and Canada.

\$82+
million
in grants

2,600+
cancer research
grants since 1975

78
on-going research grants
in the 2021-2022
grant cycle
